4/12/21

Dear Parent/Guardian,

Our School Climate/Safety Teams will be asking students to complete a survey about their school. The surveys will be anonymous and are optional. The data collected will be used to help the performance of our schools. Questions will include topics about the cleanliness of the school, if students feel safe at school, their perception of how staff interacts with them, their perception of how students treat each other, and how they feel education is supported at home and in the school.

The surveys will be done with grade 5 on Friday, April 16, 2021. We appreciate your support of our schools and we also would like to get your input as well. Please feel free to visit our website and complete the parent survey located on the Holly Heights website, prior to April 30, 2021.

Sincerely,

David Vorndran

Guidance Supervisor
